UTAK Laboratories announce release of *SMx*[™] (Specialty Matrix) Product Line

Valencia, CA (July 16, 2015): UTAK Laboratories announces the release of their ***SMx*[™]** (Specialty Matrix) Product Line. UTAK's ***SMx*[™]** Matrices replicate some of the most challenging Laboratory Testing Methodologies and have performed in real-life Laboratory conditions to a standard that is uniquely reserved for UTAK products.

Reaching beyond central laboratory testing, ***SMx*[™]** products push the envelope further than Human Blood, Urine, and Serum. ***SMx*[™]** bulk matrices and Quality Control Products are now offered as; ***SMx*[™]** Oral Fluid, ***SMx*[™]** Sweat, ***SMx*[™]** Hair, ***SMx*[™]** Urine, ***SMx*[™]** Serum, ***SMx*[™]** Cerebral Spinal Fluid, and ***SMx*[™]** Synovial Fluid. According to Dr. C. E. Pippenger, Adjunct Professor of Neurosciences, University of Vermont College of Medicine, "UTAK's announcement of Specialty Matrix Products for Biological Fluids is a major advancement for both Quality Controls and Laboratory Safety".

By addressing Laboratory concerns of Bioavailability and Lab Safety regarding Infectious Diseases that may be prevalent in other sourced matrices, UTAK has, again, delivered to the Laboratory testing marketplace a Consistent, Reproducible, and Sustainable Solution. As with all of UTAK's products, the ***SMx*[™]** Product Line for specialized testing methods will also support compliance with the ISO 15189 Standard and other Lab Accreditation for Commercial and Laboratory Developed Tests.

About UTAK Laboratories, Inc. About UTAK Laboratories, Inc. – Partner of Serobac GmbH

Founded in 1973, UTAK Laboratories, Incorporated is a recognized market leader of handcrafted quality control products used for analytical measurement in forensic and clinical laboratories.
